1st. Every person insured becomes a member of the company and takes part in the choice of officers and the direction of its concerns.

2d. For insurance no more is demanded than is necessary to meet the expenses of the Company, and indemnity against losses which may happen.

3d. The inconvenience of frequent renewals is avoided by insuring for a term of five years.

4th. Any person applying for insurance must give his premium note for the cheapest class at the rate of five per centum, which will be \$50 on the 1000, for which he will have to pay \$2-50 for five years, and \$1.50 for survey and policy, and no more unless loss be sustained to a greater amount than the funds on hands will cover, and then no more will be required than a pro rata share. These rates are much cheaper than those of other companies, except such as are incorporated on the same principles.

AMERICAN SUPERIORITY.  
The public journals have at different periods announced, as a remarkable proof of the skill and proficiency of American Artists, that Daguerreotypes are now made in this city superior, in every respect, to those made in any of the European cities. This success of American artists was confirmed, in a very gratifying and conclusive manner, by Mr. Barnum's publicly stating, at the close of his Tom Thumb exhibition in this city, that Mr. Root had made fifty-one good pictures, with only a single failure.—In addition to which, Mr. R. has been furnished with the following conclusive certificate, signed, it will be perceived, by the parents of Tom Thumb, by Mr. Barnum, his teachers, and secretary, all of whom were with him in Europe:—

PHILADELPHIA, June 4, 1847.

The Daguerreotypes of Tom Thumb and his family, including his several teachers, a footman, driver, equipage, &c., and his various costumes and characters, made by Mr. M. A. Root, (FIFTY-ONE in all,) present a degree of accuracy and truthfulness to Nature, with a bold charm of outline, softness, expression, beauty and delicacy of finish, and uniform brilliancy, that we have never seen equalled. They are decidedly superior to any thing of the kind witnessed by us either in this country or in London, Paris, or any of the cities of Europe which we have visited. We take pleasure in bearing testimony to the courtesy and skill so uniformly manifested by Mr. Root, the eminently successful Daguerreotypist. (Signed.)

S. E. STRATTON, (the Father)  
CYNTHIA STRATTON, (the Mother).  
P. T. BARNUM.  
(Exhibitor of Tom Thumb in England and America, and Proprietor of the New York and Baltimore Museums.)  
W. W. WEBSTER, (Secretary.)  
THEODORE B. CATLIN,  
(Advertiser and Secretary for Tom Thumb in Europe.)  
H. G. SHERMAN, (his Preceptor)

This is certainly very striking testimony in favor of American superiority, coming as it does from those who have examined specimens of the best productions of the art in most of the principal cities of Europe.

**Poetry.**

**WE ARE GROWING OLD.**  
BY FRANCES BROWN.

We are growing old; how the thought will rise  
When a glance is backward cast  
On some long remembered spot that lies  
In the silence of the past:  
It may be the shrine of our early vows,  
Or the tomb of early tears;  
But it seems like a far-off isle to us,  
In the stormy sea of years.  
Oh, wide and wild are the waves that part  
Our steps from its greenness now,  
And we miss the joy of many a heart,  
And the light of many a brow;  
For deep or many a stately bark  
Have the wheeling billows rolled,  
That steered with us from that early mark—  
Oh, friends, we are growing old.  
Old in the dimness and the dust  
Of our daily toil and cares,  
Old in the wrecks of love and trust  
Which our hurried memory leaves.  
Each form we wear to the passing gaze  
(The bloom of life's freshness yet,  
And beams may brighten our latter days,  
Which the morning never met,  
But oh! the changes we have seen,  
In the far and winding way;  
The graves in our path that have grown green,  
And the locks that have grown grey?  
The winter still on our own may spare  
The sable or the gold:  
But we saw their snows upon brighter hair—  
And, friends, we are growing old.  
We have gained the world's cold wisdom now,  
We have learned to pause and fear;  
But where are the living fountains whose flow  
Was a joy of heart to hear?  
We have won the wealth of many a clime,  
And the lore of many a page;  
But where is the hope that saw in time  
But its boundless heritage?  
Will it come again when the violet wakes,  
And the woods their youth renew?  
We have stood in the light of sunny brakes,  
Where the bloom was deep and blue;  
And our souls might joy in the spring time then,  
But the joy was faint and cold,  
For it ne'er could give us the youth again  
Of hearts that are growing old.

**AUTUMN HAS COME.**  
The seasons are beautiful illustrations of our lives. We all have our spring of hope, and summer of joy, happiness, growth and maturity; our fall, mixed with joy and happiness, favorable breezes and adverse winds; our winter of gloom and final decay.

Of all the seasons that of autumn we admire most. It calls the vigorous mind to profound contemplations. The beauties of earth are propitiously spread out before us, and we find ourselves praising God for his unmeasured goodness. Inestimable are the habits of thought and observation, which convert nature into the temple of God, and render all its different scenes expressive of the various attributes of the Almighty mind. It is now the pride and glory of the year.—The earth is covered with plenteousness, and the sun is pursuing like a giant, his course through the heavens, dispensing light and vigor over the world beneath him. Are there no classes or conditions of men, of whose characters and duties this season is descriptive? Are there no moral lessons which they who love the Lord may gather from this season that brings the "sere and yellow leaf?"

The grain that the summer ripens and fall harvests, are but ripened and harvested to be transplanted, and yield, perhaps an hundred fold. So with man: "Though he dies, yet shall he live again, for death shall no longer have dominion over him."

"Autumn has come;" and as we see all nature's works decaying, we are reminded that "we, too, must die." The frost of death will soon cut down the vegetable kingdom. Let us, then, ripen for the harvest and be always ready for the reaper, death.

"Autumn has come;" and with it the thief of time. How many precious moments has he already stolen from the last nine days? How many times have we passed the needy on the "other side?" How often have we neglected to feed the hungry and clothe the naked?

"Autumn has come;" and as winter is rapidly coming, we shall be wise and work, while the sun shines; fill our granaries so as to be provided for when the storms and darkness overtake us.

"Autumn has come;" and with thankful hearts we look around us, knowing that all our wants have been supplied.—Praise the Lord for his loving kindness and tender mercies towards the children of men.

Summer is gone, the fair young flowers  
Have faded in their bloom,  
And the music of the fairy brooks  
Is hushed 'mid Autumn's gloom.  
And yet the trees, all gloriously  
Have put their mantle on—  
Of gold and scarlet gorgeously,  
Like banners proudly borne.  
Oh! Autumn—thou art beautiful,  
For the Frost-King in his might  
Hath robed the earth all facitful  
With hues of rosy light.  
Our summer life hath Autumn too,  
And 'mid its waning bloom,  
We wait that Spring, whose fadeless hue  
E'er glows beyond the tomb.

**Men and Women.**—It has well been remarked that men lose their hearts through the eye, and women through the ear.

"That's a pretty bird, grandma," said a little boy. "Yes," replied the dame, "and he never cries." "That's because he's never washed," rejoined the youngster.

**INTERESTING FACTS.**

Insects breathe through holes or pores on each side of every segment of the abdomen, called spiracula.

The gall fly forms the gall nut on trees and plants by its eggs and young, and the gall fly does the same to the skin of cattle.

A healthy liver weighs nearly four pounds, but diseased ones become four or five times heavier.

The human brain is the twenty-eighth of the body, but the brain of a horse is but the four hundredth.

Otto of roses is the oil which swims on the top in the distillation of rose water.

Bird lime is prepared from the berries of the mistletoe, and the middle bark of the holly; it is boiled till it becomes soft.

The human body in a healthy state, is generally at 98 degrees Fahrenheit.

The heat of an oven, applied to a dead human body, for twelve days, reduces it from 120 to 12 pounds.

The earth is believed to increase in heat a degree in every fifteen or twenty yards in depth.

Mercury for thermometers is purified by agitation in a bottle with sand, and then by straining it through leather.

The waters of the Red sea appear to be 32 feet higher than the Mediterranean—and the Gulf of Mexico is twenty-eight feet lower than the Pacific.

Most mountains present their precipitous faces to the sea and their slopes to the land.

The sea is to the land, in round millions of square miles, as one hundred and sixty-eight to forty, or as four to one.

The narrowest part of the Atlantic is more than two miles deep. In other parts it is one and a half miles.

Insects are found in slate, and flies and ants in amber.

The highest peak of the Rocky Mountains is 12,500 feet, and James' Peak is 12,000 feet.

The mountains of Segar, in Arabia, produce frankincense; and those of Saffra, the balm of Mecca, from the amyris opobalsamum, which, in the early ages, sold for its weight in gold.

Earth is eaten as bread in several parts of the world. Near Moscow, a bill furnishes earth of this description, which will ferment when mixed with flour.

**FACTS FOR FARMERS.**

The depredations of birds are fully compensated by the services they render in preying upon insects.

A bare pasture enriches not the soil, nor fattens the animals, nor increases the wealth of the owner.

One animal well fed, is of more value than two poorly kept.

The better animals can be fed, and the more comfortably they are kept, the more profitable they are; and all farmers work for profit.

Ground well ploughed once is better than thrice poorly.

Bountiful crops are more profitable than poor ones. Make the soil rich, pulverize it well, and keep it clean, and it generally will be productive.

Weeds that grow unmolested around the fences, stumps, and stones, scatter their seeds over the farm, and they are likely to grow.

Cows fed well in winter give more milk in summer.

An ox that is in good condition in the spring will perform more labor, and stand the heat of summer much better than one that is poor.

When you see the fence down put it up; if it remains until to-morrow the cattle may get over.

What ought to be done to-day, do it; for to-morrow it may rain.

A strong horse will work all day without food, but keep him at it, and he will not last long.

A rich soil will produce good crops without manure, but keep at it and it will tire.

Farmers' sons had better learn to hold the plough and feed the pigs, than measure tape and count buttons.

Young ladies who have the good fortune to become farmers' wives, will find it more profitable to know how to make johnny cake, butter and cheese, than to play the piano.

All who wish to be rich must spend less than they earn.

**Bathing Machine Proprietor.**—Did you get that 'ere gent's sixpence afore he went into the machine?  
Assistant Boy, (a novice).—No sir,—thought as the coves paid when they com'd out.

**Proprietor.**—Pay when they comes out! Why 'spose that gent gets out of his depth and goes and drowns himself, I may whistle for my sixpence.—Ain't you ashamed of yourself?

**Stubborn.**—Obadiah Higgins had a falling out with his wife Susan, and left. Being advised the other day to return to her and apologize, he stubbornly refused, saying that so long as he could hold out, he was not going to Sue for peace.

**An Editor Hugged.**—Married, on the 30th ult., William H. Chandler, Editor of the Evansville Journal, to Miss Rebecca Jane Hugg.

**A DUTCHMAN'S DESCRIPTION OF A YANKEE.**

You can always tell a Yankee by the Jack-knife in his hand, or a cigar in his mouth. The Yankees are curious characters. To-day they are swapping horses, and to-morrow building railroads; this hour in a gutter and the next seated in a palace. Their energy knows no bounds. This month you may find a Yankee on the waters of the Penobscot, heart and soul engaged in the logging business; a quarter of a year hence you will hear of him navigating the Ohio.—Let a year pass and you may learn of him in Constantinople.

Change appears to be written in the face of a Yankee. He is never contented. If he is boot-black or clam-digger, ten to one that you will find him at the bar or in the pulpit. If educated for the ministry, he may be found teaching at some conspicuous corner. His father puts him to a mechanical trade, he will not be contented unless he sets up for himself in some mercantile business.—To-day he is one thing and to-morrow another. He will dig gardens, saw wood, teach school, preach, or even edit a newspaper, if necessary for a support; but he will not be idle.

**How would it Answer?**—The Romans used to award a surname to their Generals for distinguished victories.—Thus the two Scipios were world-renowned by the titles of Africanus and Asiaticus. How would the following sound? "Gen. Winfield Vera Cruz Cerro Gordo Churubusco Contreras Chapultepec Scott." It looks well; at any rate.

A short man became attached to a very tall woman, and somebody said that he had fallen in love with her. "Do you call that falling in love?" said an old bachelor. "It is more like climbing up to it."

**Mr. Trist and the Irishman.**—Speaking of Mr. Trist reminds me (says Mr. Kendall) of a story current on the 13th. It is said that shortly after Chapultepec was carried, that gentleman rode up the height, and, on being recognized by a gallant Irish soldier, the latter accosted him with, "I say, sir, it's a beautiful thray we've made wid 'em to-day, sir."

**The Difference.**—The question "why printers do not succeed so well in business as brewers," was thus answered.—"Because printers work for the head, and brewers for the stomach; and where twenty men has a stomach, but one has a head."

On a fish woman's stall a few live lobsters were exposed for sale. A stranger unacquainted with ichthyology, came along, and turning over the dormant "animals" asked the price, and at the same time raising one of them to a too close proximity of his nose.

"Whew!" said the fellow, "I'll have you prosecuted, mum, it smells."

At this moment the lobster's claw closed with a whack, and fastened itself firmly in the gentleman's nose. The old woman placed her arms akimbo, in triumph, and asked the gentleman, with a chuckle:

"Who smells now, Mister?"

Dr. Johnson gives the philosophy of marriage in a few words: "A married man," says he, "has many cares; but a bachelor has no pleasures. Cutting himself off from life's purest and most exquisite enjoyments for fear of some trifling annoyance, he emulates the sagacity of the wisecrone who amputated his leg to secure himself from corns."

**As Usual.**—There are (says the New York Tribune,) about 700 Whigs in the city of Albany who, like 7,000 in this city and 70,000 in the State, did not think it worth their whiles to go near the polls last Tuesday. Next morning, bright and early, at least two of the seven hundred were out with their subscription papers getting Whig signatures to their applications for office under the new State officers.

The whole colored population of Washington city was brought up a few days ago to the Mayor's office, to pay a corporation tax of two dollars each; have their names registered, and, besides that, give a bond, with five freeholders as sureties, for their good behavior, in a penalty of one thousand dollars. It is said that more than five thousand colored people must either pay up and give security, or leave the Federal city. The reason of this law is, that the States of Maryland and Virginia have adopted a course of policy in regard to their free colored people, which drives some portion of the worst of them into the district and city. The respectable and useful portion of the free blacks there, so far from objecting to the law, were influential in procuring its passage. They were, in part, perhaps, actuated by some jealousy of the competition of the free blacks from other States.

A waggish friend of ours, says the Worcester Budget, attempted to count the sleepy heads in church yesterday; he reached as high as fifty, and then fell asleep himself.

**PROTECTION AGAINST**

**LOSS BY FIRE.**

THE Cumberland Valley Mutual Protection Company, being incorporated by an Act of the Legislature, and fully organized and in operation under the direction of the following Board of Managers, viz: Thos. C. Miller, Jas. Weekly, David W. McCullough, A. G. Miller, Thos. A. McKinley, Philip Spangler, Samuel Galbraith, Sam'l Tritt, Abraham King, Adams, John Zug, Samuel Huston, J. T. Green, J. Bear, call the attention of the inhabitants of Cumberland and Adams Counties to the cheapness of the rates, and the many advantages which this kind of insurance has over any other.

1st. Every person insured becomes a member of the company and takes part in the choice of officers and the direction of its concerns.

2d. For insurance no more is demanded than is necessary to meet the expenses of the Company, and indemnity against losses which may happen.

3d. The inconvenience of frequent renewals is avoided by insuring for a term of five years.

4th. Any person applying for insurance must give his premium note for the cheapest class at the rate of five per centum, which will be \$50 on the 1000, for which he will have to pay \$250 for five years, and \$150 for survey and policy, and no more unless loss be sustained to a greater amount than the funds on hands will cover, and then no more will be required than a pro rata share. These rates are much cheaper than those of other companies, except such as are incorporated on the same principles.

AMERICAN SUPERIORITY.

The public journals have at different periods announced, as a remarkable proof of the skill and proficiency of American Artists, that Daguerreotypes are now made in this city superior, in every respect, to those made in any of the European cities. This success of American artists was confirmed, in a very gratifying and conclusive manner, by Mr. Barnum's public exhibition, at the close of his Tom Thumb exhibition in this city, that Mr. Root had made fifty-one good pictures, with only a single failure.

In addition to which, Mr. R. has been furnished with the following conclusive certificate, signed, it will be perceived, by the parents of Tom Thumb, by Mr. Barnum, his teachers, and secretary, all of whom were with him in Europe—

PHILADELPHIA, June 4, 1847.

The Daguerreotypes of Tom Thumb and his family, including his several teachers, footman, driver, equipage, &c., and his various costumes and characters, made by Mr. M. A. Root, (FIFTY-ONE in all,) present a degree of accuracy and truthfulness to Nature, with a bold charm of outline, softness, expression, beauty and delicacy of finish, and uniform brilliancy, that we have never seen equalled. They are decidedly superior to any thing of the kind witnessed by us either in this country or in London, Paris, or any other cities of Europe which we have visited. We take pleasure in bearing testimony to the courtesy and skill so uniformly manifested by Mr. Root, the eminently successful Daguerreotypist. (Signed.)

S. E. STRATTON, (the Father)

CYNTHIA STRATTON, (the Mother).

P. T. BARNUM.

(Exhibitor of Tom Thumb in England and America, and Proprietor of the New York and Baltimore Museums.)

W. W. WEBSTER, (Secretary.)

THEODORE B. CATLIN,

(Advertiser and Secretary for Tom Thumb in Europe.)

H. G. SHERMAN, (his Preceptor)

This is certainly very striking testimony in favor of American superiority, coming as it does from those who have examined specimens of the best productions of the art in most of the principal cities of Europe.

## Thanksgiving Day.

Thursday next is the day set apart by the authorities of this and several other States, as a day of Thanksgiving and Prayer. We suppose it will be pretty generally observed.

There will be religious exercises in the Presbyterian Church, at 11 o'clock in the forenoon, by Professor BAUGHN; and in the English Lutheran Church, in the evening, by Rev. Dr. WARSON.

We are requested to state that the Stores of this Borough will be closed on that day.

## Bank of Gettysburg.

The following gentlemen were, on Monday last, elected Directors of this Institution for the ensuing year:

Robert Smith,	James M. Sherry,
Wm. D. Himes,	John K. Longwell,
George Swope,	Jacob Wirt,
Wm. R. Stewart,	Geo. W. McClellan,
Wm. Gardner,	Joshua Motter,
George Young,	Joseph A. Shorb.

## Gettysburg & Petersburg Turnpike Co.

At an election held on the 9th inst., the following gentlemen were elected officers of the above Company for the ensuing year:

President—George Smyser.  
Managers—Wm. M. Sherry, J. B. M. Therson, George Himes, Jacob Wirt, Richard Dorsey, J. H. McClellan.  
Treasurer—John B. M. Therson.

The Rev. Professor HENRY I. SMITH, (formerly of Pennsylvania College, Gettysburg,) has been elected Professor of the German Language and Literature in Columbia College, New York City. Mr. Smith, during his residence with us, earned a high reputation as a scholar and a gentleman, and we are gratified to find that his worth has been so well appreciated as to induce his election to the above situation.

## A Large Black Eagle

Was caught, a few days ago, by Mrs. JONAS BRAMER, of Menallen township, with the help of her son. The distance from tip to tip of the wings, 21 inches; from the bill to tail 3 feet, 21 inches around the body, 10 inches around the head, 4 inches around the leg at the claws, and the largest feather 22 inches. Our correspondent says: "It appeared to have a little of the disposition of Gen. Taylor—but had to surrender."

On Sunday the 14th inst. the Rev. SCRIPPS TUSTIX was installed Pastor of the Presbyterian Church in Hagerstown, Md. The sermon on the occasion was preached by the Rev. Mr. HARPER, of Shippensburg, and the charge to Pastor and People, given by the Rev. Dr. WARSON, of Gettysburg.

In the preceding page will be found the Resolutions offered by the great Statesman of the West, at Lexington, Kentucky, on Saturday week. They are worthy of their illustrious author, and embody the true sentiment and policy which should govern the action of the Government in the present crisis. His speech on the occasion is to be published under his own supervision; and, in compliance with his desire, we refrain from giving any sketch of it. When we receive it, we shall, if possible, lay before our readers this great State-paper—one which will, we have no doubt, be worthy of the SAGE OF ASHLAND. Oh! that we had this far-seeing and whole-souled Patriot at the head of affairs now! What a contrast would afford present to that exhibited under the present short-sighted and imbecile Administration—who have involved us in a war unequalled for which has already caused the sacrifice of so much blood and treasure!

## Distressing Circumstance.

A very young man, named John Blair, son of Andrew Blair, Esq., of Carlisle, was admitted to practice at the Carlisle bar week before last, after passing a most creditable examination. On the Saturday of that week he exhibited some symptoms of alienation of mind, and on the following day also. He was sitting by his father in the evening, when he suddenly jumped up, rushed from the house, and was seen no more. Meetings of the citizens were called, and a general search by hundreds of persons was made for several days, but without effect until Thursday, when his body was found in a small stream of water running near the Borough, into which he had no doubt rushed in his derangement.

Mrs. DANIEL, wife of Judge Daniel, of the Supreme Court of the United States, died at Richmond, Va., yesterday morning week, from the effects of a nervous shock, produced by fire that occurred near their residence on the previous night. She was the daughter of the late Edmund Randolph, Esq., formerly Attorney General of the U. States.

## Suicide.

Miss MARY WOLFORD, of Heidelberg township, York county, committed suicide on the 6th inst. by taking arsenic. Her age was 21 years and 4 days. She had been unhappy and dejected in spirits for some time.

It is rumored that the steamers Fashion and Beaufort, bound to Vera Cruz with troops, have been lost. Those on board were Captains Hamilton and Toford's companies of Georgia mounted men.

## Gen. Scott's Despatches.

The official despatches of Gen. Scott have at last been received at Washington. They are very voluminous, and we find it out of our power, from our limited room, to give them a place in our columns. They are admirably written, and give a graphic description of the several battles in the valley of Mexico up to the capture of the Capital. It appears to have been a series of the most brilliant victories over a vastly superior force, strengthened by massive fortifications. There were, in one day, no less than five distinct actions, on different fields, and all crowned with victory.

The General says that at the great battles of Contreras, Churubusco, &c., we had but 5,497 men engaged; at the Molino del Rey, but 3,251; in the battles of September 12 and 13, but 7,180; and finally, after deducting the new garrison of Chapultepec, with the killed and wounded of the two days previous, he took possession of the great Capital on the 14th, with less than 6,000 men! He adds that in not one of the contests, was his army opposed by less than three and a half times its number—in several of them, by a yet greater excess.

His loss in the several battles after he arrived in the basin of Mexico, was 2,703, including 383 officers.

He says his small force has beaten, in view of the Capital, the whole Mexican army of (at the beginning) over 30,000 men—posted, always, in chosen positions; behind entrenchments, or more formidable defences of nature and art; killed and wounded, of that number, more than 7,000 officers and men; taken 3,730 prisoners, one-seventh officers, including 13 generals, of whom 3 had been Presidents of the Republic; captured more than 20 colors and standards, 73 pieces of ordnance, besides 57 wall-pieces, 20,000 small arms, an immense quantity of shot, shells, powder, &c. &c. Of that enemy once so formidable in numbers, appointments, artillery, &c., 20,000 have disbanded themselves in despair, leaving, as is known, not more than three fragments—the largest about 2,500—now wandering in different directions, without magazines or a military chest, and living at free quarters upon their own people.

## Santa Anna.

It is said that Santa Anna is now a fugitive and in danger of his life from his own countrymen. He had fled, after the dispersion of his troops near Puebla by Gen. Lane, to Tehuacan; but the people there would not allow him and his retinue any money or subsistence; that being without money he had sold his carriage for \$500, and proceeded with his wife and about forty followers to Orizaba, where he was about the beginning of November, and anxious to escape. The "Union" says—"We can scarcely see one who has filled so much space in the eyes of the world, now deserted and apparently hunted down by his own countrymen, without feeling some sympathy even for Santa Anna."

We have received the "Pictorial Saturday Courier," for January, 1848. It is a mammoth concern, and embellished with a variety of interesting engravings of incidents of the war, the largest of which is Gen. Taylor before Monterey.

Graham's Magazine, for December, is already on our table. Its embellishments are "The Troubadour"—"An Assassination Lodge"—and the Paris Fashions. The contents are all original, and of a highly interesting character. A new volume commences in January.

Godey's Lady's Book, for December, has been received. It is a beautiful number. There are two splendid mezzotints—"The Widow" and "The Widow"—two plates of Fashions—Model Cottages—and Music. The contents are all original.

## WHIG COUNTY MEETING.

In accordance with the call of the County Committee, a large meeting of the Whigs of Adams county convened in the Court-house on Monday evening last, to appoint a delegate to represent them in the Convention to nominate a Canal Commissioner in March next, appoint Conferees to select a Congressional Representative in the National Convention to nominate Whig candidates for the Presidency and Vice Presidency—and take such other steps as may be proper to aid in supporting their principles. The meeting was organized by appointing JAMES CUNNINGHAM, Esq., President, Col. JOHN DONALDSON and Col. JAMES MILLER Vice Presidents, and BERNHART HILDEBRAND and R. W. M. SHERRY Secretaries.

On motion, Messrs. A. R. Stevenson, John Brough, D. A. Buehler, Joseph Fink, Nathaniel Grayson, Wm. Gardner, Samuel Cobean, Ephraim Swope, James J. Will, H. J. Schreiner, and Wm. Fickes, were appointed a Committee to draft and report Resolutions. During the absence of the Committee, Messrs. D. M. SMYSER and R. G. M. CREECH, Esqs., were successively called upon to address the meeting, and responded in a series of pertinent and eloquent remarks.

The Committee to draft Resolutions, reported the following, which were adopted as the sense of the meeting, and of the Whigs of Adams county:

In the midst of war, with its thousand evils—grieved at the lethargy of our friends at home and abroad, by which political defeat has recently overtaken us—and alarmed at the consequences which are to be feared as inevitable from these misfortunes—we assemble to unite in a public expression of our opinions: to resolve upon our course for the future; to shake off our apathy, stand by our principles, and prepare for another struggle with the political foe. And we resolve—

1st. That, while we record with pride the glorious triumphs of American arms on the Mexican field, and pay our tribute to the memory of the many gifted and noble of our sons who have fallen in the achievement of victory, we enter our solemn protest against the continuance, and urge a speedy termination, of a war unconstitutional in its declaration, wicked and selfish in its prosecution, profitless in its end, and disastrous in its consequences.

2d. That, whether we be styled "Mexican Whigs" or "Traitors," we cannot approve of the efforts of James K. Polk to extend the slave territory of the United States by an aggressive war, under the pretext of driving to the payment of her debts, a sister nation, with whom we were living at peace.

3d. That the principles of the Whig party of the

Union are no less important now than they were in the victory of 1840, or in the defeat of 1844; and our experience confirms us in the conviction, that, to be prosperous, the country must be governed by them.

That, as true and unyielding Whigs, we cannot approve of any political experiment, by which we yield our distinctive organization, or strike our colors, when the hour of preparation summons us to the field. We are for Whig candidates—men who are open, avowed, thorough Whigs, in sentiment and in practice; whose views are known, who are for the Tariff of '42 and Distribution, and opposed to Annexation and the Subtreasury.

That military skill and success of the battlefield are not of themselves sufficient to qualify for the duties of a statesman or a magistrate.

That, in view of the importance of the present crisis in our political history, the necessity of efficient organization in the Whig ranks, and the choice of a candidate for the Presidency upon whom the confidence of the Whigs can safely be cast, we renew our avowal of attachment to, and preference for, WINFIELD SCOTT, as our first choice for the office of President of the United States; but hereby pledge ourselves to sustain the nominee of the Whig National Convention—be he Scott, Taylor, Clay, or any other distinguished Whig.

That the defeat of our candidates for State office at the recent election, has shown that, while our friends have neglected duty, and been temporarily diverted from their own default, our opponents, ever vigilant, are neither to be coaxed by our kindness, lulled by our quiet systems, or won by our gentleness.

That ALEXANDER R. STEVENSON, Esq., be, and he is hereby, appointed the delegate to represent Adams county in the next Convention to nominate a Whig candidate for Canal Commissioner—with power to appoint a substitute.

That DANIEL M. SMYSER, Esq., JOSEPH FINK, and JOHN BROUGHT, be, and they are hereby, appointed Conferees on the part of this County, to meet Conferees that may be appointed in York county, to select a delegate to represent this Congressional district in the Whig National Convention, and also to select an Elector, if necessary—with power to appoint substitutes.

On motion it was Resolved, That Messrs. J. B. M. CREECH, Jacob Aughinbaugh, and D. A. Buehler, be appointed Conferees to confer with Conferees from Franklin county, in selecting a Senatorial Delegate to the Canal Commissioner Convention—with power to appoint substitutes.

On motion, it was Resolved, That the proceedings of this meeting be published in the Whig papers of the County, with a request that they be copied by the National Intelligencer, and the Whig papers of the State.

The Hon. John M. Pherson, Berrien, and the Hon. Wm. C. Dawson, have been elected Senators of the United States for the State of Georgia. This is a Whig gain of one Senator, in place of Mr. Colquitt.

It is now ascertained that the Whigs will have in the next Congress 117, the Locos 110, and the Natives 1.

The Florida Legislature is now definitely settled as to its political complexion. The Whigs have a majority in the House of from 4 to 7, with a majority on joint ballot of from 8 to 14. In the last Legislature there were barely more Whigs entire than the majorities in the two Houses now are.

## Louisiana.

The delegation to the next Congress will be the same as the last. The State Legislature remains in doubt. Last year the Democrats had a majority of ten members—this election the Whigs are running them so close, that the result is doubtful.

## Dreadful.

The schr. Caroline of Saco, (Me.), from Savannah for Bath, was dashed on the 25th ult. in a violent gale. Two of the crew, together with all the provisions, were washed overboard. The survivors, three in number, were in a most destitute condition, and became so desperate that they resorted to the fearful alternative of sacrificing one of their number for subsistence to the rest, and accordingly lots were cast, and the awful decision fell upon one of the seamen named Charles Brown, who was killed, and upon whose flesh the poor wretches lived until picked up by a vessel on the 8th inst.

There was a dreadful hurricane in the West Indies on the 12th ult. In the Island of Barbadoes nearly 1000 houses were destroyed, trees, the growth of years, twisted off, the growing crop nearly all destroyed, many vessels lost, and a number of individuals lost their lives. The loss is estimated at a million and a half pounds sterling.

The Whigs have gained one member of Congress in Mississippi.

## MARRIED.

On the 8th inst. by the Rev. John Ulrich, Mr. GEORGE A. PERKINS, to Miss SARAH MILLER—both of this county.

On the 14th inst. by the Rev. Mr. Albert, Mr. ADAM LEAS, of York county, to Miss MARIA MESSENGER, of Union township, Adams county.

On the 4th inst. by the Rev. J. Seehler, Mr. JOHN DICKS, of Reading township, to Miss MARGARET YEATTS, daughter of Mr. John YEATTS, of Straban township.

On the 12th inst. Mr. GABRIEL SPANGLER, of Tyrone township, in the 52d year of his age.

On Saturday last, ELIZA JANE, infant daughter of Mr. Conrad Weaver, of this Borough.

## OAKRIDGE SELECT ACADEMY.

(FOR YOUNG LADIES.)

THE terms are believed to be lower at this Institution than at any other offering equal advantages. The course of Studies embraces all the branches usually considered essential to a finished Female Education, including Music, Painting and French. The boarding pupils are admitted as members of the Family of the Principal, receiving from him and his Lady every attention which their comfort requires, and enjoying all the privileges of home: such efforts are made to improve their manners, mind and morals, as only parental supervision, exercised on a limited number, will admit. A valuable Library, Apparatus, and Cabinet belong to the Institution. The location is healthy, elevated, and retired. Terms per annum: Board \$80; Bolding, Washing, Fuel and Lights, \$20; Tuition \$25—Total for regular expenses, \$125.

The charges for instructions in Music, French and Drawing are very low, and ornamental needle-work is taught without any charge except for materials, which are furnished at the lowest store prices.

Pupils are admitted at any time, but as the Annual Session for the present Academic year has just commenced, it would be to the advantage of those who wish to enter during the year to do so without delay.

The terms for Day Scholars are 15, 20, and 25 dollars. In very bad weather pupils from Town will either be sent for, or a deduction will be made in proportion to the time lost.

One of the partners of the Concern (who selects the TEAS)—learned this difficult business of the Chinese themselves, having resided among them many years, at Canton, engaged in the Tea trade. Possessing this extraordinary advantage, the ability of the House is unquestionable, and may be relied upon for furnishing, not only safe, but also, most delicious TEAS, and at the lowest possible prices.

At this period, when the public taste is undergoing a change from the GREEN to BLACK TEAS, it may be interesting to know that the Chinese universally drink BLACK TEAS, considering the GREENS fit only for foreigners.

**Mr. Clay's Resolutions & Speech at Lexington.**

It is known to our readers that the Hon. HENRY CLAY had engaged to attend a public meeting of citizens at Lexington, Kentucky, on Saturday, the 13th inst. and there to deliver his views on the war with Mexico, its origin and objects, on the conquest of Mexico, and its proposed annexation to the United States. The meeting took place, and accordingly Mr. Clay attended and fully redeemed his promise.

We insert the resolutions, which, both on account of their distinguished source and the wise and patriotic sentiments they embody, are of the highest interest. In deference, however, to the desire expressed by Mr. CLAY that no sketch of his speech should be published until he could himself prepare a full and accurate report of it, we omit the sketch which has reached us, and await the appearance of the speech in an authentic form.—*Nat. Int.*

From the Special Reporter of the "Daily News," Lexington, (Ky.) November 13, 1847.

The announcement that HENRY CLAY would address the citizens of Lexington to-day drew together an immense concourse. The day opened gloomily enough, and rain fell during the morning; but before the meeting was organized it had cleared sufficiently to permit the meeting to be held at the time appointed—11 o'clock, A. M.

At that hour a vast crowd had gathered from all quarters, and it appeared that many had come a great distance; the most intense anxiety prevailed, and the accustomed enthusiasm which Mr. CLAY invariably awakens in the people was every where manifested. The prophet that had foretold the war was to answer the yearning desire of the nation to know how the unholy war, whose advent he had prophesied, should be brought to a close; how the country should protect itself from the recklessness of a blindly ambitious and weak minded President, and the will of the nation be made known in its most impressive form. All seemed to feel that it was a deeply important event, that would stir the Union from one end to the other; and it was in that spirit they awaited the advent of the Sage of Ashland.

Mr. CLAY ascended the platform, accompanied by some of his friends, amid universal and tremendous shouts, and took his seat. He looked well, and his form was erect and his eyes as bright as ever.

Gen. LESLIE COMBS called the assembly to order, and remarked that he hoped perfect order and silence would be observed, as it was probably the last time the illustrious statesman then before them would ever address a popular assembly. He had resolved to do it, on this occasion, from a high sense of duty to himself and his country. The momentous question now presented to the Americans of annexation, by conquest or purchase, of an immense extent of foreign territory, inhabited by millions of people of different races and colors, and placing them on equal footing with the free citizens of this Republic, permitted no man who loved his country to remain silent, and Henry Clay would be unworthy of his past history if he allowed any selfish considerations to pale his tongue. He had rather be right than be President.

Gen. Combs concluded his remarks by nominating the Hon. Mr. ROBINSON as Chairman; and the nomination, together with those of a considerable number of Vice Presidents, was confirmed by acclamation. The meeting being thus fully organized—

Mr. CLAY rose and presented himself to the people. His appearance was hailed, as before, with tremendous shouts, to which followed a deep and general silence, and he then offered and read the following resolutions, which he had prepared:

1st. *Resolved*, As the opinion of this meeting, that the primary cause of the present unhappy war existing between the United States of America and the United States of the Republic of Mexico, was the annexation of Texas to the former; and the immediate occasion of hostilities between the two Republics arose out of the order of the President of the United States for the removal of the army under the command of Gen. Taylor from its position at Corpus Christi to a point opposite to Matamoros, on the east bank of the Rio Bravo, within the territory claimed by both Republics, but then under the jurisdiction of Mexico, and inhabited by its citizens; that the order of the President for the removal of the army to that point was imprudent and unconstitutional, it being without the concurrence of Congress, or even any consultation with it, although it was in session; but that Congress having by subsequent acts recognized the war thus brought into existence without its previous authority or consent, the prosecution of it became thereby national.

2d. *Resolved*, That in the absence of any formal and public declaration by Congress of the objects for which the war ought to be prosecuted, the President of the United States, as Chief Magistrate, and as Commander-in-Chief of the Army and Navy of the United States, is left to the guidance of his own judgment to prosecute it for such purposes and objects as he may deem the honor and interests of the nation to require.

3d. *Resolved*, That, by the Constitution of the United States, Congress being invested with powers to declare war and grant letters of marque and reprisal, to make rules concerning captures on land and water, to raise and support armies, to provide and maintain a navy, and to make rules for the government of the land and naval forces, has the full

and complete war-making power of the United States, and so possessing it, has a right to determine upon the motives, causes, and objects of wars, when once commenced, or at any time during their progress or existence.

4th. *Resolved*, As the further opinion of the meeting, that it is the duty of Congress to declare, by some authentic act, for what purpose and object the existing war ought to be further prosecuted; that it is the duty of the President in his official conduct to conform to such a declaration of Congress; and if, after such declaration, the President should decline or refuse to endeavor, by all means, civil, diplomatic, and military, in his power, to execute the announced will of Congress, and in defiance of its authority should continue to prosecute the war for purposes and objects other than those declared by that body, it would become the right and duty of Congress to adopt the most efficacious measure to arrest the further progress of the war, taking care to make ample provision for the honor, the safety, and the security of our armies in Mexico in every contingency; and if Mexico should decline or refuse to conclude a treaty with us, stipulating for the purposes and objects so declared by Congress, it would be the duty of the Government to prosecute the war with the utmost vigilance until they were attained by a treaty of peace.

5th. *Resolved*, That we view with serious alarm, and are utterly opposed to any purpose of annexation of Mexico to the United States, in any mode, and especially by conquest; that we believe the two nations could not be happily governed by one common authority, owing to their great difference of race, language, and religion, and the vast extent of their respective territories and large amount of their respective populations; that such a union, against the consent of the exasperated Mexican people, could only be effected and preserved by large standing armies and the constant application of military force; in other words, by despotic sway, exercised over the Mexican people in the first instance, but which there would be just cause to apprehend might, in process of time, be extended over the people of the United States. That we deprecate, therefore, such a union as wholly incompatible with the genius of our Government, and with the character of our free and liberal institutions; and we anxiously hope that each nation may be left in the undisturbed possession of its own laws, language, cherished religion, and territory, to pursue its own happiness according to what it may deem best for itself.

6th. *Resolved*, That, considering the series of splendid and brilliant victories achieved by our brave armies and gallant commanders during the war with Mexico, unattended by a single reverse, the United States, without any danger of their honor suffering the slightest tarnish, can practice the virtues of moderation and magnanimity towards their discomfited foe; we have no desire for the dismemberment of the Republic of Mexico, but wish only a just and proper fixation of the limits of Texas.

7th. *Resolved*, That we do positively and emphatically disclaim and disavow any wish or desire on our part to acquire any foreign territory whatever for the purpose of propagating slavery, or of introducing slavery from the United States into such foreign territory.

8th. *Resolved*, That we invite our fellow-citizens of the United States who are anxious for the restoration of the blessings of peace, or, if the existing war shall continue to be prosecuted, are desirous that its purposes and objects shall be defined and known—who are anxious to avert present and further perils and dangers with which it may be fraught, and who are also anxious to produce contentment and satisfaction at home, and, to elevate the national character abroad, to assemble together in their respective communities, and to express their views, feelings, and opinions.

In the commencement of his remarks upon these resolutions, Mr. CLAY stated his objections to having them reported, and made generally known, until they had undergone his own supervision, as the subject on which he was about to speak was one upon which he wished not to be misunderstood.

In concluding his speech, Mr. CLAY avowed himself to be strongly opposed to the extension of slavery, deplored its existence, but remarked it as a universal evil. He considered the refusal to accept new territory as the best means of arresting the difficulties that surrounded this important but delicate subject.

The speech occupied two hours and a half in its delivery. The speaker adhered very closely to his resolutions, and they embodied all the great principles which he advocated and discussed. The resolutions were adopted by acclamation.

Connecticut U. S. Senator.—Governor Bissell has appointed Ex-Governor Roger S. Baldwin to the U. S. Senate, to fill the place vacated by the decease of Senator Huntington, till the meeting of the Connecticut Legislature in May next.

A base attempt to blow up the freight train on the Utica and Schenectady road, was made last week by placing powder and percussion caps on the track. The explosion caused the destruction by fire of the wooden casting of the boiler.

**INTERESTING FROM MEXICO.****Particulars of the Death of Captain Walker.**

The Picayune, in one of its Vera Cruz letters, contains the following account of the death of Capt. Walker:

From Puebla the news is of considerable interest, communicating the melancholy tidings of the death of Capt. Samuel H. Walker, of the mounted rifles. He joined Gen. Lane with his company at Perote, and upon their arrival near Huamantla, found that the place was occupied by Santa Anna and about fifteen hundred men. Capt. Walker, commanding his company and that of Capt. Louis's Louisiana Rangers, (total 196 men,) proceeded into the town in advance, and finding the Mexicans prepared to receive them, Capt. Walker gave the order to charge, and the lancers, who did not fall beneath the deadly fire of the rifles and carbines, fled.

According to the accounts, Santa Anna, who was but a short distance off, used his wooden propeller to good advantage, making another miraculous escape. In the melee Capt. Walker killed with his own hand a young Mexican lancer. Skirmishing continued until they reached the plaza, when all fled except the father of the young man who had fallen by the hands of Capt. Walker, who seated himself behind a house until Capt. W. approached, when he sallied out, lance in hand, and made a desperate attack on Capt. W. to avenge his son. Capt. W. fired his revolver, but unfortunately missed his aim, when the old man killed him with his lance and fled, exclaiming that he had avenged the death of his son. Capt. Walker's last words to his men were: "Although your Captain has fallen, never surrender, my boys."

As soon as Captain Walker had fallen, Capt. Lewis took command of the battalion, and ordered the streets and other places to be scoured, which was immediately done, and but a few moments elapsed before the village was entirely clear of the hostile portion of the inhabitants. The loss of the Americans I have not been able to ascertain, but it is very slight. That of the Mexicans was severe, and an officer of Capt. Lewis' company killed the commanding officer of the lancers in the charge.

Many of the houses of the village were sacked and destroyed, and it is much to be regretted that after Gen. Lane had passed on, a number of stragglers, who had been intoxicated in the village, were put to death by the Mexicans. Accounts vary as to the number who were killed in this way, and a private letter which I have seen sets the number down at about forty men, and other accounts makes it larger. A letter from Puebla to the Delta, says: His interpreter, who was wounded in the leg, died while undergoing amputation. The entire loss of the Americans cannot, according to all accounts, fall short of 60, in killed and wounded.

Lieut. C. L. Denman, and Mr. A. W. Russell, late of Capt. Walker's company, came down from Perote to Vera Cruz with the train of the British Minister, and have arrived at New Orleans.—Both return on account of illness.

A letter from the city of Mexico to the Delta thus announces the reception of the intelligence of Capt. Walker's death in the army.—

"Among other melancholy events of the campaign, is the death of Capt. Samuel Walker, formerly of the Texan Rangers, but lately of the Mounted Rifles. He has served his country faithfully, and his own daring bravery at length cost him his life. He was killed in charging Santa Anna's large body at Huamantla, with about 200 cavalry; the charge succeeded, but he fell. Many of his old friends, the Texan Rangers, are here, and the only expression I heard them make on hearing of his death was, with a sigh, 'poor Sam, he was a brave man, but I never expected he would die anywhere but in a charge.'"

The Vera Cruz Genius of Liberty before us, contains Santa Anna's report of the battle of Huamantla. He says he killed one hundred of the enemy, took twenty-four prisoners, and lost seven men in killed and wounded, with two pieces of cannon!

Bustamante has raised an army at Queretaro, said to be 20,000 strong, with which, when reinforced to the extent of 50,000, he professes his ability to drive the Americans out of the country.

The money to effect this purpose has been freely furnished by private subscription. It is said that the enthusiasm in the Central States is at its highest pitch. The taking of the Capital has aroused the indignation of the people, and excited every man to furnish his means to the utmost.

The President of Mexico, Pena y Pena, has ordered Santa Anna to resign the command of the army forthwith to Gen. Rincon, and prepare to answer charges which have grown out of the surrender of the capital, and loss of the battles before the city.

A letter to the Delta from the city of Mexico, dated the 29th of October, says:

We see by letters published in El Monitor of yesterday, that Santa Anna has complied with the requisitions of Pena y Pena, the present President, and fixed his residence at Tehuacan, where he awaits orders.

However, a different feeling appears to be pervading the whole country since our entry into the Capital. Senor Pena y Pena has taken a firm hold of the reins of Government, and has called around him as advisers and counsellors a much better and more intelligent class of men than has honored the Cabinet of Mexico

for some time. He has scattered and dispersed the factions which were breeding disturbances at Queretaro a short time since.

The new elections of Deputies have resulted in the choice of a more liberal and better class of men than heretofore, and nearly all have signified their anxiety for a speedy peace; however, a majority of the old Deputies are also known to be in favor of peace; but the great obstacle in the way is, that all parties are anxious to be left in power, or acquire some advantage over their opponents, before the consummation of such an event.

Another letter, in speaking of the late earthquake, says: "The shocks were the severest I ever experienced, and created a general panic all over the city, with Americans as well as Mexicans."

The latest intelligence from the city of Mexico is doubtless contained in the following extract of a letter from Vera Cruz to the Picayune:

"Since writing the above, two Frenchmen, with three servants, have arrived from Mexico, having left on the 13th inst., but bring no news from General Scott of importance; they represent every thing as perfectly quiet in the city, and the health of our troops very good."

It is said that the roads leading to the capital are all guarded by guerrillas to prevent provisions being carried into the city, and that the poor were commencing to suffer for food. Corn was selling as high as \$2 50 per bushel.

A letter to the Delta, dated at Perote Castle, Oct. 22, says—

Not less than 350 men, sick and wounded, were left behind in the hospital, principally from Lally's command.

During the progress of Major Lally's command from Vera Cruz to Jalapa, it was frequently annoyed and attacked by the guerrillas, as you have ere this been informed.

Tuesday, the 12th inst. being the day of election in Pennsylvania for State officers, the volunteers in garrison, by an act of the last session of the Pennsylvania Legislature, were entitled to the right of suffrage.

Accordingly at 10 o'clock, the poll opened.—Capt. Binder acting as Judge; Lieut. Alex. Brown, Inspector; Edward Deaves and Charles Jones, Clerks.—when the contest commenced by the friends of the several candidates. The following is the result: for Governor—Francis R. Shunk received 66 votes; James Irvin 20; Shunk's majority 46. For Canal Commissioner—Morris Longstreth received 66 votes; Joseph W. Panton 19; Robert H. Morton 1. What effect this election may have upon the future destinies of the "Keystone" State, remains to be seen; but one thing we can boast, the election passed off without a single case of intoxication, and consequently a bloody nose or black eye was not visible!

The Charleston Mercury states that the gallant South Carolina Regiment which left the United States nine months ago, numbering nearly eleven hundred men, between eighty and ninety only were left to enter the city of Mexico.

The trial of Lieut. Col. Fremont is to develop, at the outset, the evils which flow from an inordinate expansion of territory, in the disputes arising between the two pro-consuls sent to rule the distant provinces of the "empire." The home Government is the seat of patronage to the Governors of the far-off Territories; the Territories themselves are to be the objects of ambition. The country looks on and pays the expenses, not only of the conquered provinces, but of the quarrels which are engendered for the love of ruling them. Who would have thought this of this Republic twenty-five years ago?—*Alex. Gaz.*

The Public is reminded by the N. York Express that in the Congress which is to assemble on the 5th of the next month, every member of the House of Representatives has been chosen by single districts, for the first time, we believe, since the organization of the National Government in 1789. For this reform the nation is indebted to the Whig Congress of 1841-42, their political opponents having since abandoned their attempts to repeal the law, and the States of New Hampshire, Georgia, Mississippi and Missouri, which at first resisted it, and illegally elected their Representatives by general ticket, have finally found the system so popular with the people of those States, that their respective Legislatures have permitted the general law to go into effect by adopting the District system, and their Representatives to Congress have been elected under it.

**Sale of the Mount Savage Works.**—The extensive Iron Works in Alleghany county, Md., known as the Mount Savage Iron Works, were sold entire, including the railway from the works to Cumberland, on Thursday last, at public auction, for \$225,000. The purchasers were Messrs. Corring & Winslow, of Albany, New York, and Mr. J. M. Forbes, of Boston, Mass., who, it is supposed, will immediately resume operations.—The sum paid is scarcely half the cost of the works, and is believed to be far below their real value. The company will hereafter be called the "Lulworth Iron Company," under an act of incorporation passed by the last Legislature.

**Advertising.**—Blackwood's Magazine says: "There is but one way of obtaining business—publicity; one way of obtaining publicity—advertisements. The newspaper is the fly-wheel by which the motive power of business enterprise is sustained, and money the steam by which the advertising is kept going."

A young friend, who has just reached his twenty-first birthday, communicated the following to us for publication:

**GOOD-BYE TO BOYHOOD.**  
Days of my boyhood, light-some and gay,  
Days of the heart, hope-lit and bright,  
Thou'rt gone; Life's sunny May!  
Gone like a dream of the night!  
I drop thee a tear, and leave thee a sigh—  
Days of my boyhood, good bye, good bye!  
Life's bright morn! Life's best cheer!  
Thy tale is told, thy chapter read;  
Youth's cloudless skies, and men's ills dear,  
Like fairy visions have faded and fled:  
Gone—gone—forever and aye—  
Days of my boyhood, good bye, good bye!  
Nerve me now for manhood's strife,  
Forgotten be the boy-plays past—  
Before me now is the Burial Place,  
My sword is drawn and scabbard cast—  
The world is the field; the prize, the sky—  
Days of my boyhood, good bye, good bye!

**IRELAND.**  
Dublin, October 21.—The country is in a frightful state of disorder. Crime progresses with undiminished rapidity. Murder succeeds murder, and the horrors attending the death of Mr. Roe have been replaced by the fresher horrors accompanying the assassination of Mr. Lucas. It is painful to contemplate the social aspect of the country before we have reached the gloom of winter, when disorder plays its most bloody and daring feats. This was wont to be the season of repose; turbulence now reigns over a large portion of two provinces. A marked characteristic of the marauding bands which march about in the open day is their determined spirit of resistance. They attack poor-houses and enter demesnes to carry off flocks in the very presence of the military and police. Sometimes they engage with them, as in the case of the desperate riot at Rathkeale. Another feature peculiar to these displays is, that the mass consists, not of paupers and famine-stricken wretches, but of strong, hale young fellows, who, having no employment, cultivate wickedness. The object is to deter rents from rates. To suppress the furious spirit which works more strongly from day to day, and is soon likely to overspread these provinces, will require all the powers of the executive.

**Financial and Commercial Prospects.**—The accounts, financial and commercial, by the latest steamer from England are very unfavorable, and the general opinion is that "the end is not yet." Monetary matters were very stringent, and all descriptions of American products were very low; cotton and breadstuffs much lower than they are in our own country. Of course there is an end to exports of breadstuffs, but cotton will be shipped throughout the season, and at much lower prices than our planters supposed a few months ago.

The crop of cotton is generally estimated at about twenty-two hundred thousand bales, with the chances of one hundred thousand more—the season for picking having been unusually fine. In consequence of the great decline in cotton in Europe just as the crop is coming to market in the South, the planters will be sorely disappointed, as it is estimated that the proceeds of the present crop will be from twenty to twenty-five millions of dollars less than had been expected.—This, in the face of large imports and the cessation of exports of breadstuffs, may be looked upon as a national calamity, and it is hoped the Secretary of the Treasury will not lose sight of these important facts when he makes his report to Congress.—*Nat. Int.*

**From the Slave Coast.**—The late English papers contain intelligence from the West Coast of Africa, reaching to the 31st of August. It was sickly at Sierra Leone, and the officers and crews of vessels which had been sent in there by the English squadron are suffering from fever. The shores of the Bights of Benin were resuming their notoriety for slave dealing. The accounts state that a schooner had been captured with 608 slaves on board, 108 of whom she had lost on her passage to Sierra Leone; and that a notorious slaver, the Brazilian, a brig of upwards of 200 tons, and two schooners—all empty, however—had also been captured—all in the Bights.—The slave trade to the south of the Bights is likewise reported to be brisk. One schooner empty, and another with fifty-seven slaves on board, had been taken to Sierra Leone and condemned.

A large steam boiler in the sugar refinery of Messrs. Foetscher & Co., of Sudderburg, Prussia, exploded on the 30th ultimo. The fragments struck 33 workmen, 4 of whom were killed on the spot, six died while being conveyed to the hospital, and 8 next day.
